TEKINA I MOANA – Tonga (PCC)

One important point to note is that Visitation was the vital part of the *TIM* Response Framework.

Most people in the islands know that the churches were there first to provide immediate relief and the Bible.

Providing counselling is the connecting of the visitation to the people with a prayer and Talanoa.

'Fofola e fala kae talanoa e kainga' is the spirit of dialogue between the visitors and the islanders. It means to roll out the mat so we can sit on it and openly talk. Since there is no mat to sit on, the sand and the remainder of the house became the mat which producing a thematic fruitful talanoa of the Kainga.

Islanders were so happy to see us as a yard stick of the assessment.

The Tekina I Moana has the biggest networks in Tonga and also able to build a good strategic networks with its regional and international partners is a big success
