BOW awardee)**

**Bachelor's Degree in Pedagogy
(elementary school teacher)**

Dear Sisters,

I'm very happy to inform you that I've graduated the University of Ulaanbaatar - Erdem as an Elementary teacher on 21 June, 2021, with great support of FLC. Now I'm working as an elementary school teacher in 109 school of Nalaikh District, Ulaanbaatar, Mongolia and teaching at 3b class. Because of your great support and prayers, now I'm working as a teacher. Thank you very much for your generosity and support.

Yours sincerely, Dejid

TUMAINI RUTTA

(2020 SAYW awardee)

M.A. in Community Development

St. John's University of Tanzania

Completing her research on

“Influence of Social Welfare Services on the well-being of vulnerable children”

for submission

I am Ackraraporn Takam, a third-year Master's student in Christian studies at McGilvery University. I would like to thank all of you for your financial support in my education. I am very grateful to receive this valuable gift towards my degree. If I was not able to receive your support, I may not have had the opportunity to further my education. I will indeed continue to study with the utmost effort, in order to be a good citizen, that your donation may produce the greatest benefit. I have finished my second year and have entered in to third year. Allow me to report the results of this last year. This is the last year of studying for a master's degree. During this time at McGilvery college.

I participated in many activities but because it is during the Covid situation there were some activities that were held in which I participated including Culture night, Big cleaning day, worship night for Awakening, Teacher's Day, Christmas day, Senior Farewell. These activities promote community building at the university. These activities revives our spirit and helps us to grow in the Lord well. Throughout the two years of study, I have learned the experience from the people of this university, not just by studying and gaining knowledge of theory. In practice, we have been involved in the lives of people studying in the same class and juniors, as well as we have experienced the lives of each teacher in sacrifice and in many respects that served as a role model for me. And with these experiences I have grown and blessed others as well. I felt a connection with the Lord through the activities I organized. I feel closer to God and have been encourage by the people around me.

This year was the hardest because I had to finish my degree. I have been praying to God very much about the division of time for both service and study. This 3 rd year has been during the Covid situation that continues to spread heavily. I myself had to study online for 1 semester. I personally am tired with online learning. because there is no opportunity to meet friends or do activities together in the university. I feel uncomfortable with this situation. Also, since this year is the last year, next year when I graduate, I have to go out to serve. I still worry about the future, not knowing what God will prepare for me. I continue to pray for goals in the future service that God has provided so that the work that will be served in the future according to the will of God. I thank God for my time and for the grade that came from my efforts. I have improved my life in terms of study, sharing my life with others, and finally when my education is completed, I will serve the Lord with full dedication, in order that God's mission may be advanced. May the Lord bless you.

Respectfully yours, Ackraraporn Takam (6 Sept. 2021)
